

Research Methodology & Project Development Workshop Series

The workshop series will be held in two 5 month blocks (September 2016 - January 2017 and February 2017 - June 2017). Each month the group will meet for a 2-hour discussion session. The sessions will focus on exploring current research projects participants are developing, through peer-to-peer, and facilitator led discussions. Over the 5 months, investigators will have the opportunity to refine and develop their projects based on concepts discussed in previous sessions.

REGISTER TODAY

www.vchri.ca/researchmethodology

Dates Block 1 - Mondays
(Sep 19, Oct 17, Nov 21, Dec 18, Jan 16)
Block 2 - Thursdays
(Feb 9, Mar 9, Apr 13, May 11, Jun 8)

Time 8:00am - 10:00am
Where Diamond Health Care Centre
Room 10207
2775 Laurel Street, Vancouver

Vancouver Coastal Health Research Institute (VCHRI) in partnership with the UBC Department of Medicine Research Office and the Centre for Clinical Epidemiology & Evaluation (C2E2) is offering a workshop series for investigators* interested in developing research questions and research methodology skills.

*OPEN TO ALL VCHRI AFFILIATED INVESTIGATORS

Workshop Features

Don't miss this learning opportunity!

- Engaging, interactive learning model - discussions with peers & C2E2 faculty
- Assistance with methodological concepts and theory development
- Opportunity to present your ideas and receive constructive feedback from facilitators and group

Who should sign up?

- Investigators wanting to develop their research questions for grants or pilot studies
- Investigators needing assistance in reporting/manuscript writing
- Investigators interested in developing skills in research design, methodology and protocol development
